SUMMARY OF QUALIFICATIONS

- Previous work experience in creating **low-fidelity and high-fidelity wireframes**.
- Developed interactive prototypes that showcase design concepts and user interactions.
- Used **typography, color theory, and graphic design principles** to create engaging designs.
- Ensured designs adhere to **WCAG** accessibility standards for an inclusive user experience.
- Analyzed test results and made data-driven design improvements.
- Academic experience with **Agile Project Management** methodologies and tools like Jira and Trello.
- Highly analytical thinker, strong problem-solving, debugging and troubleshooting abilities.
- Ability to work under minimum supervision and in a collaborative environment.

TECHNICAL SKILLS

- **Designing Tools:** Adobe Photoshop, Adobe Illustrator, Adobe XD, Sketch, Figma, Axure RP, Marvel
- **Programming Languages:** JavaScript, Typescript, HTML, CSS,
- **Frameworks:** React, Bootstrap, Tailwind CSS
- **Libraries:** jQuery, Node, Express JS
- **DBMS:** MySQL
- **Operating System:** Windows, Linux
- **Programming Tools:** GitHub, Git
- **Cloud Computing:** AWS (EC2)

CERTIFICATIONS

- *Build a JavaScript AI App with React and the OpenAI API* |October 2023|
- *Learning Jira Software* |September 2023|
- *Angular Essential Training* |August 2023|
- *Graphic Design Careers: First Steps* |September 2021|

EDUCATION

Web Development and Internet Applications

|May 2022 – August 2023|

Ontario College Diploma

St. Clair's College, Windsor South Campus, ON

Recipient of Student Leadership Award 2023

- **Semester 1:** Introduction to C# Programming, HTML And CSS, Working with Graphics, Data Fundamentals, Law and Ethics in the Digital Age, Information Technology Essentials
- **Semester 2:** JavaScript 1, Web Design/CSS, PHP Basics, Introduction to Asp.net, Web Usability, Interpersonal Violence
- **Semester 3:** JavaScript 2, Mobile Web Development, PHP 2, Develop Web Apps in Asp.net, Agile Project management, Celebrating Cultural Diversity
- **Semester 4:** JavaScript 5, Advanced Web Apps with PHP, Cloud Server Administration, Web Communications Project 1, Portfolio Development, Money Matters

RELATED WORK EXPERIENCE

UI/UX Developer, Intern

[May 2021 – Jan 2022]

IT Sutra

Kathmandu, Nepal

Project Name: “UI/UX Enhancement Project”

- Collaborated with a team of designers to create visually compelling and user-friendly interfaces.
- Assisted in user research, conducting usability tests and analyzing results to improve designs.
- Developed wireframes and prototypes to illustrate design concepts and interactions.
- Worked closely with developers to ensure design consistency and user-focused implementation.
- Conducted design reviews and provided feedback to enhance the overall user experience.
- Employed Agile project management methodologies and effectively utilized Jira for task tracking and project management.

ACADEMIC PROJECTS

E-Sewa Wireframe

<https://github.com/raishakafle/Esewa-Wireframe>

- Led the development of wireframes for E-Sewa, one of Nepal's top e-transfer companies, targeting sign-up and home page improvements.
- Collaborated closely with the E-Sewa team, gaining insights into their specific requirements, and translating their vision into actionable wireframe designs.
- Incorporated usability testing into the wireframing process to ensure that the design aligns with user preferences and enhances the overall user experience.
- Crafted a visually engaging home page with intuitive navigation, ensuring seamless access to E-Sewa's services and offerings.
- Maintained a strong commitment to quality by conducting usability tests and integrating feedback to refine the wireframe design.

Music Website- Wireframe

<https://github.com/raishakafle/Sample-Wireframe>

- Successfully executed the design and development of a comprehensive wireframe using Adobe XD, catering to the specific requirements and objectives of the Client.
- Demonstrated exceptional collaboration skills by actively engaging with the client throughout the wireframing process, effectively translating their vision into an actionable wireframe design.
- Initiated and conducted thorough user research, which encompassed user interviews, surveys, and usability testing.
- The insights gathered were pivotal in shaping a wireframe that emphasizes a user-centric interface.
- Innovatively crafted wireframe components with interactivity that enables users to effortlessly navigate between album selections and discover their favorite artists, ensuring a seamless and intuitive user experience.
- Demonstrated commitment to quality assurance by orchestrating usability tests to validate the wireframe's design and user-friendliness. The results gleaned from testing sessions led to iterative improvements that significantly enhanced usability.
